Centers for Disease Control and Prevention
CDC 24/7: Saving Lives, Protecting People™

National CMV Awareness Month

CMV is the most common infectious cause of birth defects in the United States.

Two new free resources are available from the CDC:

[Identifying Congenital Cytomegalovirus \(CMV\) Early in Life: Information for Healthcare Providers](#)

[Talking with Pregnant Patients about CMV: A Resource for Healthcare Providers](#)

Please click the above links to download.

Thanks again for your continued support.

Sincerely,

The Idaho Perinatal Project
