

## Provider Testimonial

*I just had a clinic visit with a female patient who was on buprenorphine all through her last pregnancy; she delivered a healthy baby girl who is now five months old.*

*She usually brings the baby to her medications for opioid use disorder visits, giving me a chance to play granddad. She told me today how much she is enjoying the new baby, that with her other four children she used drugs during and after pregnancy and doesn't even remember their infancy.*

*She says, "Being sober is amazing."*
