

**Join us for the Office of National Drug Control Policy (ONDCP)'s upcoming webinar:
*Harnessing the Power of Collaboration to Improve Outcomes for
Families Affected by Substance Use Disorder in Pregnancy***

Thursday | September 15, 2022 | 11:00am–Noon (PDT) / 2–3pm (EDT)

Register Now: The White House Office of National Drug Control Policy (ONDCP), the National Network of Perinatal Quality Collaboratives (NNPQC) coordinated by the National Institute for Children's Health Quality (NICHQ), and the National Center on Substance Abuse and Child Welfare (NCSACW) invite you to a webinar on implementing Plans of Safe Care (POSC) to support infants, parents, and caregivers affected by substance use disorder. This webinar supports the Biden-Harris Administration's Drug Policy Priority to "explore, identify barriers, and establish policy to help pregnant people with substance use disorder (SUD) obtain prenatal care and addiction treatment without fear of child removal."

The webinar will highlight Oklahoma's collaborative approach to supporting infants and families affected by prenatal substance use, including the partnership with the Oklahoma Perinatal Quality Improvement Collaborative, the Department of Mental Health and Substance Abuse Services, and the Department of Human Services. Participants will also be introduced to state Perinatal Quality Collaboratives and the technical assistance resources available through NCSACW.

Join us as we engage national experts to learn more about:

- Oklahoma's implementation of family care plans during the prenatal period to improve outcomes for families and prevent unnecessary child placement and to support these infants, families, and caregivers
- Oklahoma's changes in health care, substance use disorder treatment, and child welfare systems that support collaborative practice
- How Oklahoma has aligned and integrated cross-system supports for substance-exposed infants

Meet our presenters:

Stephen W. Patrick, MD, MPH, MS, FAAP

Senior Policy Advisor, White House Office of National Drug Control Policy

Scott D. Berns, MD, MPH, FAAP

President and Chief Executive Officer, National Institute for Children's Health Quality

Principal Investigator, National Network of Perinatal Quality Collaboratives

Nancy K. Young, PhD, MSW

Executive Director, Center for Children and Family Futures

Project Director, National Center on Substance Abuse and Child Welfare

Teri Kook, MSW

Senior Program Associate, Children and Family Futures

National Center on Substance Abuse and Child Welfare

Barbara O'Brien, MS, RN

Director, Oklahoma Perinatal Quality Improvement Center
