

The Idaho Perinatal Quality Collaborative

Did you know the pregnancy-related mortality ratio in Idaho was 41.8 per 100,000 live births in 2020? Statewide action is needed to improve outcomes for parents and babies in Idaho.

Idaho MMRC Pregnancy-Related Mortality Ratio, 2018-2020

The Maternal and Child Health Program of the Idaho Department of Health and Welfare and Comagine Health have partnered to establish Idaho's Perinatal Quality Collaborative (PQC). PQCs are statewide collaboratives of clinical providers, public health leaders, community-based organizations and patients and families who work together to improve outcomes for parents and babies. We need people and organizations like yours to join us!

What do PQCs do?

- Statewide quality improvement projects
- Knowledge and resource sharing across participants
- Advocacy
- Reporting and analytics

Get Involved!

We are seeking input from stakeholders from across Idaho to inform the structure of the PQC and identify key priorities. To express interest in participating in the PQC, and make sure you are invited to upcoming regional stakeholder meetings, please complete the interest form available by scanning the QR Code below or at the link:
